CLAIMS 1-43 ARE PRESENTED FOR EXAMINATION

Applicant's election of Group I, claims 1-18, 22-25 and 27-42 in Paper No. 7 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Applicant merely makes a broad allegation that the search would not be a burden on the examiner without explaining why a search would not be a burden.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims drawn to the administration of compounds for therapeutic reasons.
- II. Claims drawn to the administration of compounds for cosmetic application.
- III. Claims drawn to the administration of compounds to cells to differentiate said cells

The inventions are distinct, each from the other because:

They have acquired a separate status in the pharmaceutical art.

Inventions I and II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have unrelated effects.

Group I is unrelated to Groups II and III since the compounds have a therapeutic effect by regulating neural tissues, bone and cartilage formation, etc.

Art Unit: 1617

Group II is unrelated to Groups I and II since the effects of the compounds is to regulate skin and hair.

Group III is unrelated to Groups I and II since the compounds are regulating the differentiation of tissue arising from primitive gut or regulation of hematopoietic function.

The claims, as drawn, incorporate each of these separate and distinct inventions.

Further, the Groups set forth above have acquired a separate status in the pharmaceutical art.

The claims will be searched only to the extent of the election made by the applicant.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Further restriction may be required.

No telephone communication was made on this restriction requirement because the restriction is complex. (MPEP 812.01).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore J. Criares whose telephone number is 308-4607. The examiner can normally be reached on 6:30 A.M. to 5:00P.M. Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Theodore J. Criares can be reached on 305-1877. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Art Unit: 1617

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 308-1235.
